TEMPERATURE TAPES

NEW! Temperature testing tapes for fusing machines. Temperature tapes are the easiest and most accepted method of confirming fusing machine performance. While heating controls regulate machine temperature, temperature tapes are used to confirm the correct amount of heat is reaching the "thermoplastic resin" to achieve optimum bond performance. Tapes verify fusing machine performance and predict bond quality.

Most common temperature range:
#TT220-290F

For shirt collars & cuffs: #TT290-360F

For transfer printing: #TT350-420F

Please Note: **Sold by Pack of 40 Temperature Strips (Non-Assorted)**

AIR TREADLE ROD SWITCHES

Air Treadle Rod Switches are specifically designed for use with the following devices:

1. **Chain Cutters**
2. **Needle Coolers**
3. **Waste Removers**
4. **Vacuums (Venturi)**
5. **Cylinders with Spring Return**
6. **Blowers**
