LIST OF PARTS

MACHINE No. 71-30

** A TRADE MARK OF
THE SINGER MANUFACTURING COMPANY
INSTRUCTIONS FOR OILING

To ensure easy running and prevent unnecessary wear of the parts which are in movable contact, the machine requires oiling, and when in continuous use, "TYPE B" or "TYPE D" OIL, sold only by Singer Sewing Machine Company, should be applied regularly to all oil holes marked "OIL", as instructed in Form 7804. "TYPE D" OIL is stainless.

Occasionally remove the screw from the loose pulley and apply a small quantity of BALL BEARING LUBRICANT to the ball bearing of the pulley through the tapped hole, using BALL BEARING LUBRICANT sold only by Singer Sewing Machine Company, then replace the screw in the loose pulley.

INSTRUCTIONS FOR ORDERING

In ordering from this list, use ONLY the PART number in the FIRST column.

The number stamped on a Sewing Machine Part is the number of the Single Part only, except when the part includes Set Screws, Clamping Screws, Studs and Rollers Spun on, Small Wires riveted, or Parts soldered together, etc., which it is necessary to furnish in combination.

Every combination of parts sent out has its specific number which, although not stamped on Parts (except in above case), must be used when ordering the combination.

Each number always indicates the SAME PART in whatever list it appears, or for whatever Machine.

The letters after some of the numbers indicate the style of finish only, as follows:

A. Hardened, Polished, Nickel Plated and Buffed.
B. Polished, Nickel Plated and Buffed.
C. Hardened only.
D. Polished only.
E. Soft, not polished.
F. Hardened and Polished.
H. Blued.
J. Nickel Plated only.
R. Merlized.
X. Black Oxide.
XC. Hardened and Black Oxide.
Y. Black Nickel only.

These letters MUST BE USED when they appear in the list and AFTER the number, as in the list.

In this series:
200001 to 201500 and 350001 to 351500 are Screw Numbers.
201501 to 201800 and 351501 to 351800 are Nut Numbers.
201801 to 202000 and 351801 to 352000 are Roller Numbers.
202001 to 350000 are Numbers of Machine Parts.

The figures in the second column refer only to the plate in which the illustration of the part is shown and are NOT TO BE USED in ordering.

Two or more numbers over a cut indicate that the difference between such parts is not visible in an illustration.

Parts marked with an asterisk (*) are furnished when repairs are made at the factory.
LIST OF PARTS COMPLETE
FOR
MECHANICAL No. 71-30
Makes Purl Stitch, Barred Ends, Knives from 3/8 to 3/4 in., Cuts Both Threads and Hole Automatically after Stitching.
